THIRD ORDER OF BUSINESS

A.

Rivers Edge CDD – I, II, and III

Landscape Update for April 2024

- General Maintenance
 - We have set the clock to three times a week with the turf starting to come out dormancy and the temperatures going up
 - \circ $\;$ We have Detailed and Cleaned up the Riverhouse and Riverclub.
 - Team is spraying for weeds throughout the community and trimming shrubs.
 - \circ $\ \ \,$ Teams are working on grass cutbacks and removing moss from trees
 - \circ ~ We will ensure that all tree suckers are removed from the base of the trees
 - Team has been spraying all mulch beds for clean appearance.
 - \circ $\,$ We are removing as much Moss from trees as we get to each section
 - Teams have removed numerous trees and limbs that have fallen at no charge. Larger trees will be proposed for removal by the arbor team.
 - Mattamy, Vesta, and Yellowstone are doing monthly drives throughout the community to check on status of concerned areas and the overall appearance of the community.
 - Annual flowers will be installed in March along with fresh and rich soil. We raised the beds for a better show. We installed Vic Blue Salvia, Antiqua Yellow Marigolds, and Pink Begonias. This is my favorite rotation for spring!
 - The low beds have caused the flowers in the past to decline prematurely and not show off as intended.
 - This is caused by the flowers staying too saturated which causes the roots to rot.
 - Proper mowing heights for each type of turf will be achieved throughout the winter and early spring months.
 - Because of this you will see scalping occasionally until the proper height is achieved.

• Ex. If you want to maintain a height of 4in you need to drop the level of the existing canopy of the turf to between 3.5-3.75 so that the new green growth is what is showing after each mowing occurrence moving forward.

• Irrigation

- Techs have been running through system and making repairs as we go.
- \circ $\;$ All clocks are being set to run three times a week due to amount of rain we have had
- \circ $\;$ Lead tech is working with IQ system to help system run more efficiently.
- We are setting five day rain delays when we have rain
- Other options are being looked at to make the system more efficient and save on the annual water cost.
 - Items being looked at:
 - Eliminating bubblers on established trees that do not need them anymore
 - Making sure all rain sensors are operational
 - Adding rain sensors to battery operated valves
 - Each area will be different depending on layout and justification of cost.
 - Some will be looked at to be added to a clock with wiring.
 - Others will be looked at for rain sensor installation and hidden by plant material if required.

• Fert/Chem

- Our techs will be treating for turf weeds throughout the community.
- The turf is starting to come out of dormancy. Teams are spreading granular fertilizer to green up turf and push healthy growth
- Lead tech is Treating roses with bone meal and liquid fertilizer.
- Arbor
 - We will continue to lift low hanging trees throughout community each week for line of site issues, safety issues, aesthetics, and improved tree health with balanced weight distribution from the branches.

RECDD's Monthly Operations Report

Date of report: 04/17/2024

Submitted by: Jason Davidson & Kevin McKendree

RECDD I

RiverHouse Light Pole:

The timeline to get the parts to fix this light has taken longer than expected. The new light fixture has arrived. We hope to have this completed by 4/17. This is now closed.

Alley Way Parking:

During last month's CDD meeting it was determined that parking in the alleyways on the paver islands within the original Mainstreet district is indeed not permitted. New signage was provided to us by ASAP towing and we are awaiting the arrival of the poles before installation. Staff has collaborated with Supervisor Cameron on details and location. These have been installed and this is now closed.

Pond K Fish Restocking:

After the fish kill situation in May of last year, restocking pond K has been a discussion. We are working with Florida Waterways on permitting with FWC so that we may proceed forward. We are also in the process of relocating the fish barrier as the old one was broken and unsafe to access.

Cabana Pergola:

There are a couple of rotten beams on the pergola in between the two pools at the Riverhouse. We also found some rotten wood on the top caps of the exposed pillars. We acquired quotes to have this replaced but they were high in price. We located a lumber mill that can get us what we need as the lumber dimensions are atypical and will be performing this repair in house now. This is a cost savings of approximately \$3,500. This is now complete with the exception of painting as we are allowing time for the pressure treated lumber to dry out before doing so. If you paint pressure treated lumber before it is dry the liquid preservation chemicals are sealed inside the wood and it will rot from the inside out.

Lounge Chairs at RiverHouse:

Many of the original lounge chairs at the RiverHouse are broken beyond repair as the welds have broken apart. We have ordered new chairs for the family pool side and are relocating the old ones that are still usable to the lap pool area. Our old chairs were also soft washed this month and we are looking into buying replacement slings in preparation for the busy season. New chairs are due to arrive April 20th.

Pressure Washing:

We started pressure washing curbing along Rivertown Main starting at the entrance off of LongLeaf Pine PKWY. We will work our way down as time allows. We are currently working on the pool decks in preparation for the busy season.

Asphalt Trail around and along Waterfront Dr:

It was brought to our attention that the walking trail near the intersection of Waterfront Dr and Orange Branch Trail needed some attention. We are looking into removing the asphalt, cutting away the tree roots and asphalting the affected area.

RiverHouse Pump Room:

Alpha foundations installed the helical piers to the family pool sand filter pad. We plan on using dirt from the tennis court resurfacing project to fill in the low spots in the pump room and bring the grade back to standard and top with rock. We also verified that the hidden low point drain is fully operational. The grading of this was done at no cost to the community as the fill dirt and rock were repurposed from elsewhere. This is now closed.

Slide resurfacing:

We are in the process of gathering proposals for slide resurfacing of our waterslide at the RiverHouse.

Tennis Courts:

Resurfacing of the tennis courts began last week. Unfortunately we ran into an issue with the clay delivery, rain and residents using the court when it was closed which delayed the project another day in order to regrade. Our in house maintenance staff also added a series of drains between the courts this week to help the water shed off the courts which will preserve the clay. This is now closed and play has resumed.

Street lights:

We have located 5 of the tall street lights in the community that after troubleshooting, have been determined to have bad drivers. These are on order and this project will be coupled with others while we rent a lift in order to save costs.

Street lights around the Groves on Rivertown Main:

The street lights on Main street in this area were flickering due to a "dropped leg" on the B phase of power. This makes it to where they are only being given 100 volts of power from the meter and they need 120 to operate. We have contacted FPL to come out and address the issue.

Tire ruts on neighborhood entrance in front of RiverHouse:

Construction vehicles are continuously driving over our turf on the interior island of the entrance into the neighborhood from SR 13 in front of the RiverHouse. We installed landscape boulders there to "frame out" the roadway which will impede tractor trailers from hopping the curb. We are also exploring adding a road sign.

RiverFront Park Pier:

Two out of the four flags were stolen from the piers roof. We will now be locking these to the pole with a wire that is crimped so that it cannot be cut easily.

RiverHouse Pool:

The expansion joint in the family pool has developed a crack. Epic Pools came out to putty over it to ensure no water is lost.

RECDD II

RiverClub Painting:

The café staff was busy this month painting the bar's bottom and columns to rejuvenate the room.

RiverClub Missing Plant Material:

We installed approximately 30 Jack Frost ligustrums in the median at the club. This is to fill in areas for cosmetic purposes and hopefully deter cars/golf carts from running over the other landscaping.

Ampitheatre Lighting:

We discovered that we had multiple LED light bars that were non operational at the ampitheatre. Being that these were pod LEDs and not bulbs we had to replace the fixtures to bring them back to standard. This is now closed.

Watersong Pond 13:

Pond 9 in Watersong has washouts/craters in the shoreline from runoff. We will be having this excavated and smoothed back out then resoded.

RECDD III

Haven Ponds:

Pond PP and RR in the Haven have washouts that have impacted the sight lines of the shoreline which has made for some unhappy residents. We are having them excavated out which will bring them back to standard. This is now closed.

All Districts

Pine Tree Issues:

It has been brought to our attention that numerous pine trees in CDD 1 and CDD 2 that have a disease called canker. This disease is spread through the tree's roots and then to its neighboring tree's. We are working with a specialist from Yellowstone landscaping to identify trees that can be saved by injection treatments and which ones need to be cut down and removed. CDD1 has a heavily hit area around the interior round a bout and CDD 2 is concentrated in Highpoint.

Midge Complaints from RiverTown Residents:

Last year we had numerous complaints of midge fly infestations coming from the 2 ponds in Northlake, pond K and pond Z. We have been receiving numerous concerns already this year as to what will be done to mitigate the issue this year. After talking with Jim Scwartz with Florida Waterways, he stated that the growing season for these starts in April. He performed dredge samples of the lake bottoms to get a count on the larvae to see if treatment is recommended. There are two options to mitigate this. One is a bacterial treatment that attacks the larvae in their infancy stage and is applied every 3 weeks during the growing season. The other is stocking more gambusia fish that eat the larvae of the midge and mosquito. Being such that ponds are not treated for insects these would be an additional cost to their contract. We have contracted Florida Waterways to perform both of these methods at the price of their product costs with no labor charges as a favor from Mr. Schwartz. The bacterial treatment was performed 4/3/24 but we are still waiting on the fish from the farm. These will be introduced as soon as they arrive.

Specialist Comments to Customer

It was great catching up with you and discussing pond 5 and the others. We will be working on a proposal for a flocculant treatment for pond 5. I inspected ponds and removed accessible trash. Herbicides were used for invasive vegetation. I used a water conditioning algaecide on pond 5 to work on sequestering the nutrients contributing to the constant algae. Algaecide was used to treat algae around pond 1. I applied probiotics to certain ponds to stimulate microbial activity and control nutrients. Dye was added to reduce light penetration contributing to growth. My last treatment on pond 2 was highly successful. I inspected pond 12, as there was a complaint, but found very minimal algae from light grass clippings. Grass clippings do directly contribute to algae, however, it appears as if landscapers are doing a good job at minimizing the amount getting into the water. I'm also noticing that some of the submersed vegetation has been pulled up from grass carp and is evident floating in some edges of the ponds. I have several ponds that I plan on treating next visit. As the temps raise, we will be seeing more

growth occur and I will treat accordingly. Thank you for being a Solitude customer!

Work Details

Specialist Comments to Customer

I used an herbicide mix to treat any nuisance vegetation around listed ponds. Dye was added to ponds 1,2 & 5. Probiotics were added to ponds 1,2,5 & 14 to help control nutrients. Algaecide was used to treat algae on ponds 1,2,5 & 14.

Storms came in mid day and limited my treatments, however, I worked on removing the excessive construction trash on ponds 6,9 & 15 during the rain.

I did see some significant sand flowing into ponds 14 and 6 from the stormwater systems coming from the streets due to unturfed yards. This is contributing to our nutrient problems. I noticed the outflow grate in pond 4 is backed up with leaves and causing the water level to be high.

2 small gators were sighted in ponds 2 & 4. At this time, they are keeping their distances. We will be finishing up the contract to order the Metafloc for pond 5 which will greatly control the eutrophic state that we are in and reset the bar. Thank you for being a Solitude customer!

COST-SHARE STATUS COVER SHEET

Instructions to Staff: Please complete this form and attach as a cover sheet to each proposal presented for approval.

Proposal: Backup Motor for RiverClub

1. Is the cost for this work intended to be shared?

■ Yes (Please proceed to question 2)

□ No, the entire cost will be paid by: [Choose One] (Please leave remainder of form blank)

2. If yes, please check one of the following:

This work was reviewed by the engineer and methodology consultant and jointly they have determined the costs are "Shared Costs", as defined in the *Interlocal Agreement*, and such Shared Costs are budgeted expenses in the current fiscal year budget.

 \Box This work is for a new or supplemental area, service, or improvement that was not previously budgeted as Shared Costs and/or were not budgeted items for the current fiscal year and require immediate funding. (Please attach the Cost-Share Request Form).

[End of Cover Sheet]

COST SHARE REQUEST

This cost share request (the "Request") shall be subject to and governed by the terms of that certain *Tri-Party Interlocal and Cost Share Agreement Regarding Shared Improvement Operation and Maintenance Services and Providing for the Joint Use of Amenity Facilities*, dated November 1, 2019, as may be amended from time to time ("Interlocal Agreement").

Requesting Party: Rivers Edge III CDD

Request: Gupplemental maintenance services for existing Improvements (i.e. enhancement of existing improvement areas). (Methodology Consultant must sign. Please attach party signature page.)

□ Addition of new improvements (Methodology Consultant and Engineer must sign)

Please identify the scope of supplemental services or describe the additional improvements requested to be added. Attach service maps that clearly identify new or enhanced maintenance areas. Attach additional sheets if necessary: This would be for a back up motor for the RiverClub Pool.

Two Proposals were provided. This proposal is for Epic Pools should they be considered.

Backup pump and motor for RiverClub: (Cost Share)

The RiverClub pool could use a backup motor. Should the current motor go down during the summer, it typically takes some time to locate a replacement as motors of that size are not readily available. In the absence of a backup motor, we risk potentially having to close the pool for an unknown period. Please see the below quotes for backup motor and pump assembly for your consideration. Please note this is a cost share item. Breakdowns are provided in your packet per vendor should you approve.

| Vendor | Warranty | Job Scope | Cost |
|--|--|-----------------------------|------------|
| St. Augustine Electric Motor Works | One year from manufacturer. Labor not included | 10HP Pentair pump and motor | \$7,671.19 |
| Epic Pools | One year from manufacturer. Labor not included. | 10HP Pentair pump and motor | \$7,300 |

Should you have any comments or questions feel free to contact me directly.
